***HF WELDING MACHINES***

***RETROFITS***

**Your HF welding machines can be adapted to your new productions.**

We can deliver new or second hand machines (with new components) with a GOLD warranty of 1 year and with CE norms.

**The machine will be adapted to your new applications with increasing of productivity.**

- Manual operations will be replaced by automatical commands
- Press will be upgraded with a more powerful generator
- Parts will be delivered and output automatically
- special 2D or 3D electrodes will be put....

**You will succeed because:**

- Second hand machines are on stock with accessories like continuous work bench, winding machine, cutting machine.
- we make 3D study of applications to guarantee the outcome of a project.
- we know special applications like wood, glue.
- All HF electrical and pneumatical spare parts are new and available.
- We have specific HF measure instruments.
- Repairing by phone is possible and on the premises is better

You will find our web site at <http://www.wvs-tech.de>. You will find all inquiries to test your process and then we test your plastic sheet to have the best machine.
